**Satellite Dish/Antenna Location Policy**

Under Section 2.05 of the Green Pastures Residential Architectural Review Guidelines And Declaration Of Residential Deed Covenants no “satellite dish or other apparatus for transmission or reception of television signals” may be “erected, used or maintained on the Property...without the prior written approval of the Committee.”

In order to simplify the enforcement of this Section, The Committee has adopted the following policy regarding satellite dishes, etc. which are one meter or less in diameter to be placed for the reception of television signals. Such satellite dishes, etc. in compliance with the following policy do not need written approval of the Committee. Satellite dishes, etc. which are more than one meter in diameter are not allowed in any instance without written approval of the Committee.

In conjunction with other Sections of the Green Pastures Residential Architectural Review Guidelines An Declaration Of Residential Deed Covenants regarding refuse containers, fences, clotheslines, etc., the goal of which is to have an aesthetically pleasing development, satellite dishes, etc. which are one meter or less in diameter shall be laced in such a way that they will not be visible from the street, unless it can be shown to the Committee that such placement will impair reception of an acceptable signal. Should it be felt that acceptable reception is impaired by such placement, the party wishing to install said satellite dish, etc. shall immediately contact the Committee to reach an agreement as to proper placement and possible painting or screening of said satellite dish, etc. in such a way as to be aesthetically pleasing without impaired reception.
